MEDICAL AND INTERSTATE COLLECTIONS INCENTIVE

The incentive formula for 19YY-YY includes a payment for IV-D collections made by FOCs on behalf of other states and for medical support collected on dollar specific obligations in IV-D cases.

Based on the total reported for these collections in columns I and II on lines 22-24 of the FIA-284 Title IV-D quarterly reports for _____ 19YY through _____ 19YY, you are entitled to an incentive payment of \$_____.

Where FIA-284 reports covered more than one county, the collections were allocated to individual counties based on the net ADC collections shown on the monthly FIP-002 incentive worksheets for each county.

A state warrant for this incentive will be mailed to your County Treasurer. The following message will appear on the warrant stub:

Child support interstate and medical incentive payment

These collections and this incentive will be included in the incentive figure used in computing your final incentive payment for 19YY-YY.

If you have any questions about this incentive computation, call the Office of Child Support, Administrative and Program Support, at 517-373-9202.
